

Ruby Red

EXTREMELY WARMING WHITE TAN ACCELERATOR

An extremely warming tan accelerator for advanced users.

Strength ★★★★★

300x

A tan full of fiery sensations.

Effect after application:

It is almost impossible to get certain body areas to tan...

Ruby Red will allow you to tan even the most stubborn spots thanks to the warming power of its fiery brown colour.

It is best to apply the lotion a few minutes before tanning. It will cause skin redness which should go down after about an hour.
