

# Tan Delight

DARK TANNING ACCELERATOR

For those who use tan accelerators more often than bronzers.

Strength ★★

100x

“

A subtle tan and creamy gentleness.

## Effect after application:

Tan Delight makes even very dry skin charmingly smooth and soft, whereas the tan is lasting and natural. This lotion is gentle to the skin and yet extremely effective, which is what makes it perfect for both beginners and experienced tan lovers.

It is best to apply Tan Delight a few minutes before tanning.

Effects will become visible gradually, within 48 hours after the session.
